

```
void main()
{
    int a,b;
    clrscr();
    printf("enter the value of a & b\n");
    scanf("%d %d",&a,&b);
    printf("value of a is=%d\n");
    printf("value of b is=%d\n");
    if(a>b)
    {
        printf("a is greater than b\n",a);
    }
    else
    {
        printf("b is greater than a\n",b);
    }
    getch();
}
```
